

Project: Study Center Management System

Project Receive Date- 1 August 2025

Expected Project Delivery Date: 1 Nov 2025

Build a **responsive website** for a study center where students can register, book one of three daily study-slots, and administrators can manage approvals, allocations, and payments—all while presenting a polished public landing page to visitors.

1. Objectives

- Provide an online presence for the study center
- Enable students to self-register, select a slot, and view payment status
- Give admins a dashboard to approve users, allocate seats, and track “Paid” vs. “Pending” fees

2. Key Functional Areas

Area	Core Features
Public Landing <ul style="list-style-type: none">• Overview of facilities, slot options & pricing• “Register” / “Login” buttons• Contact form & map embed	<ul style="list-style-type: none">• Hero slider with center highlights
Student Portal <ul style="list-style-type: none">• Dashboard showing bookings & payment status• Online payment integration (e.g. Stripe/PayPal)	<ul style="list-style-type: none">• Registration form (name, email, phone, slot choice: Slot A/B/C)
Admin Portal <ul style="list-style-type: none">• View per-slot occupancy and manage waitlists• See & export lists of students by payment status	<ul style="list-style-type: none">• Approve/reject new student registrations

3. Slot Structure

- **Three daily slots** (e.g., Morning, Afternoon, Evening)
- Each slot has a fixed capacity of seats
- Successful registration + payment reserves one seat
- If a slot is full, students can join a waitlist
